

Chapter – 1

Food : Where Does it come from?

NOTES:

1. Food is any substance that provides nutritional requirement of an organism.
2. Plants and animals are the main sources of food.
3. Animals which eat only plants or plant products are called herbivores.
4. Animals which eat flesh of other animals are called carnivores.
5. There are some animals which eat both plants and other animals, they are called omnivores.
