CHAPTER-16

GARBAGE IN, GARBAGE OUT

NOTES:

- Garbage may be kitchen leftovers, old papers, broken plastics, glass, old shoes, bags etc.
- Landfill is an area where the garbage collected from a city or town is dumped.
- Paper can be recycled to get useful products.
- The method of making compost from kitchen garbage using red worms is called Vermicomposting.
- Converting plant and animal wastes, including that from the kitchen, into manure is called Composting.
- Plastics give out harmful gases upon heating or burning.
- We should not throw plastic bags here and there.
- We insist shopkeepers to use paper bags. We should carry a cloth or a jute bag for shopping to minimise garbage and over use of plastics.
- We should follow proper practices for disposing different kinds of wastes.
